Orders

Minor Colors

# Workflow

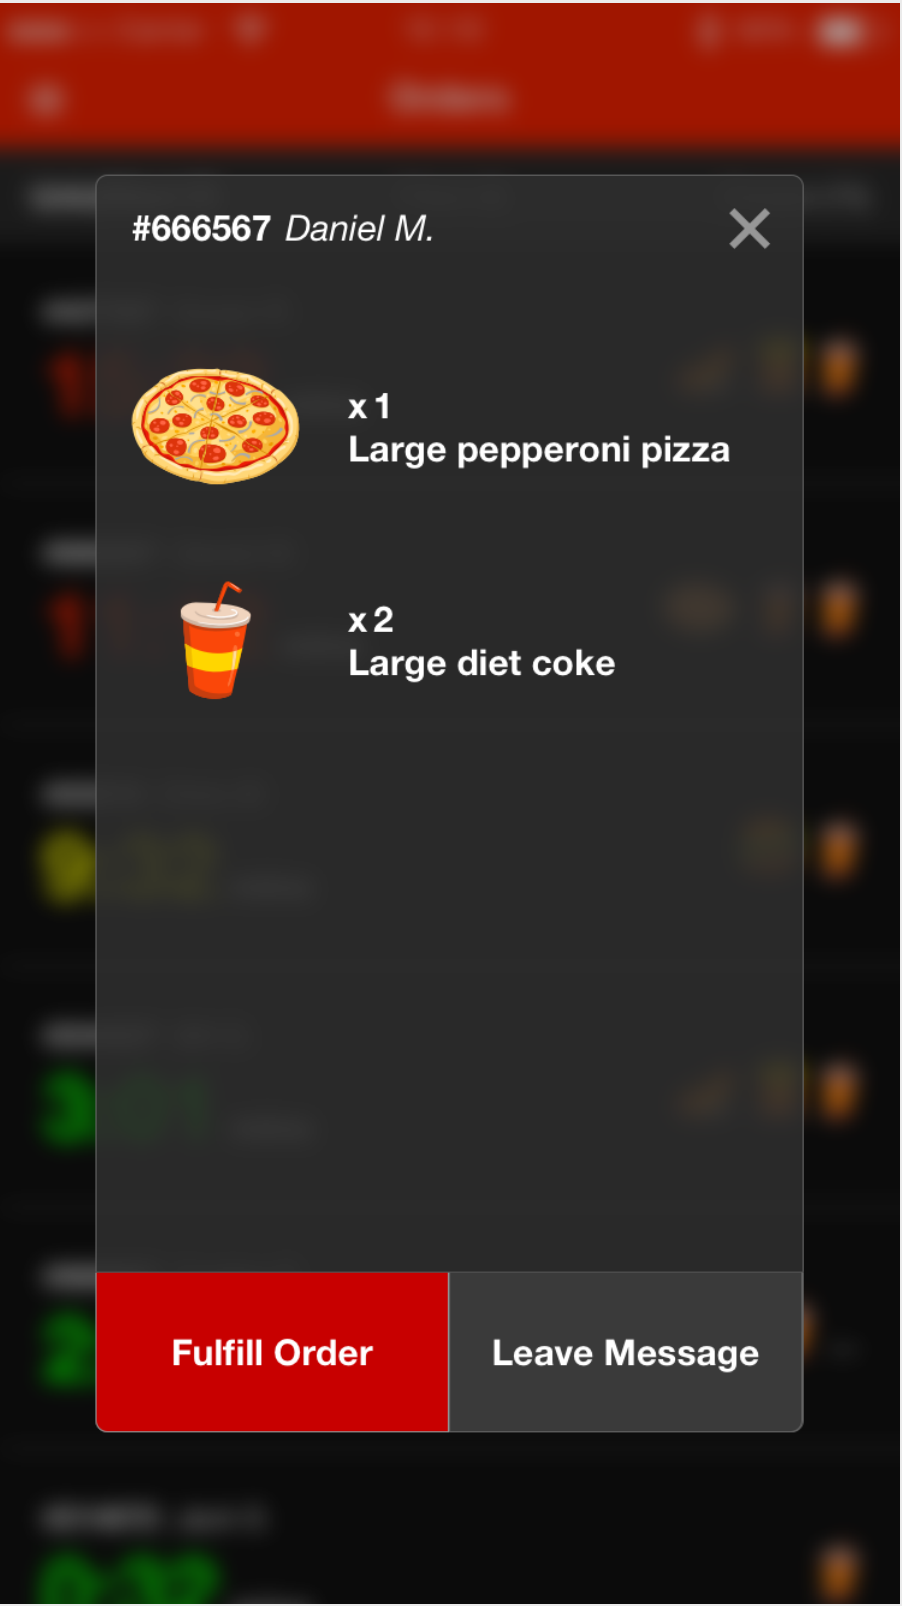

After logging-in, runner would be able to preview the orders within a vertical list view, sort by elapsed time with colors.

Once tap into a specific order, there are specific order details, and fuctions of "Fulfill Order" and "Leave Message".

## Unfulfilled Orders

## Order Details

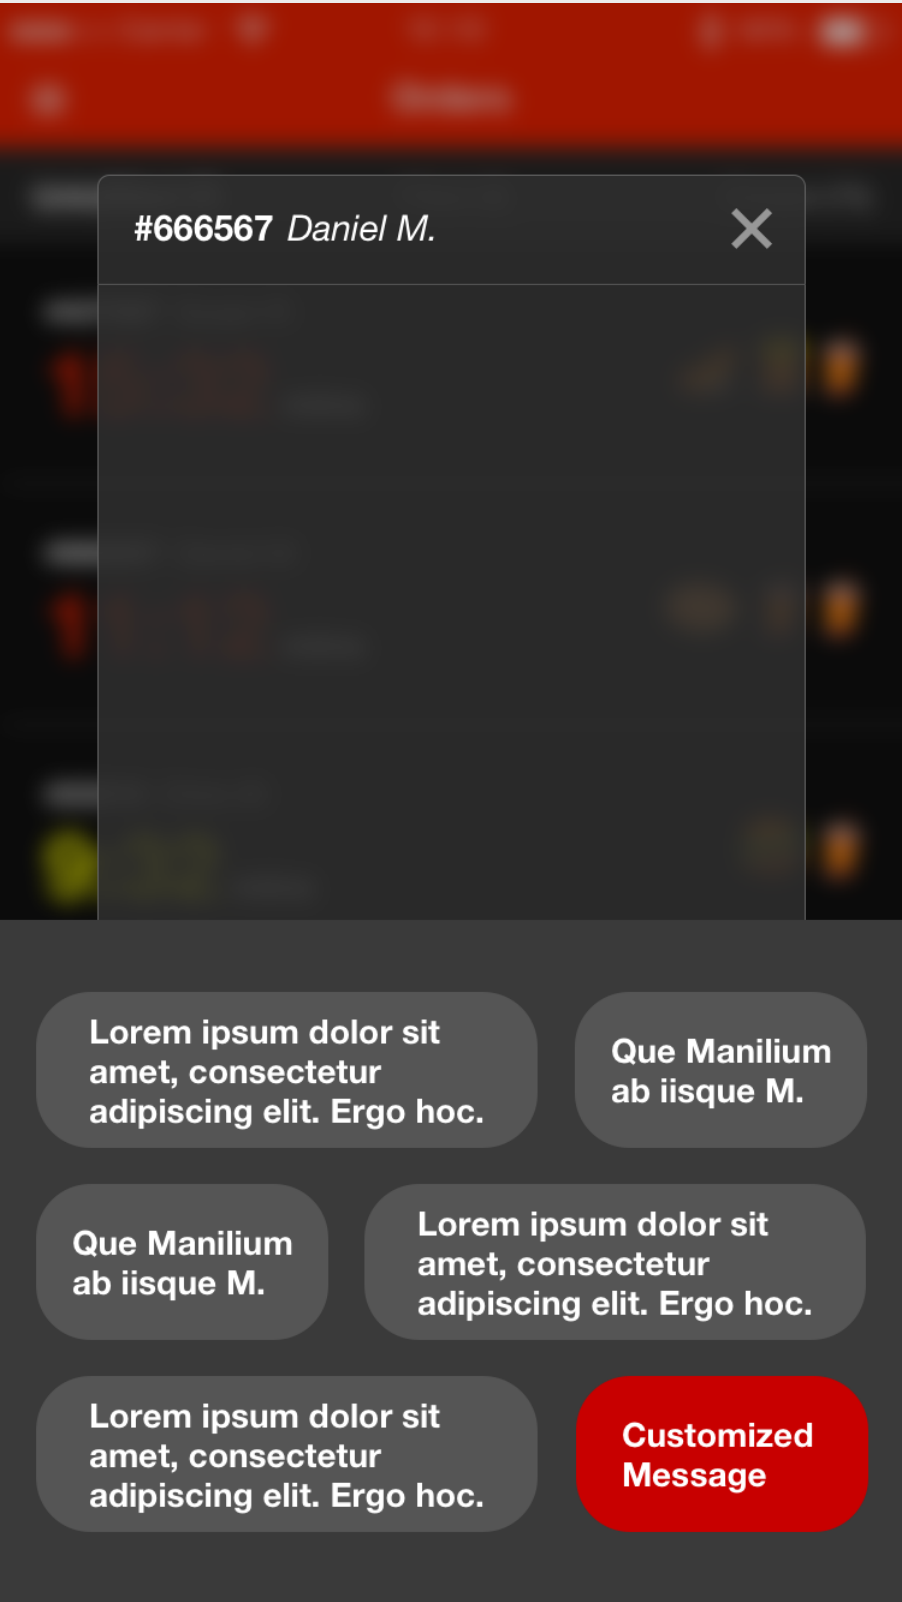

# Workflow

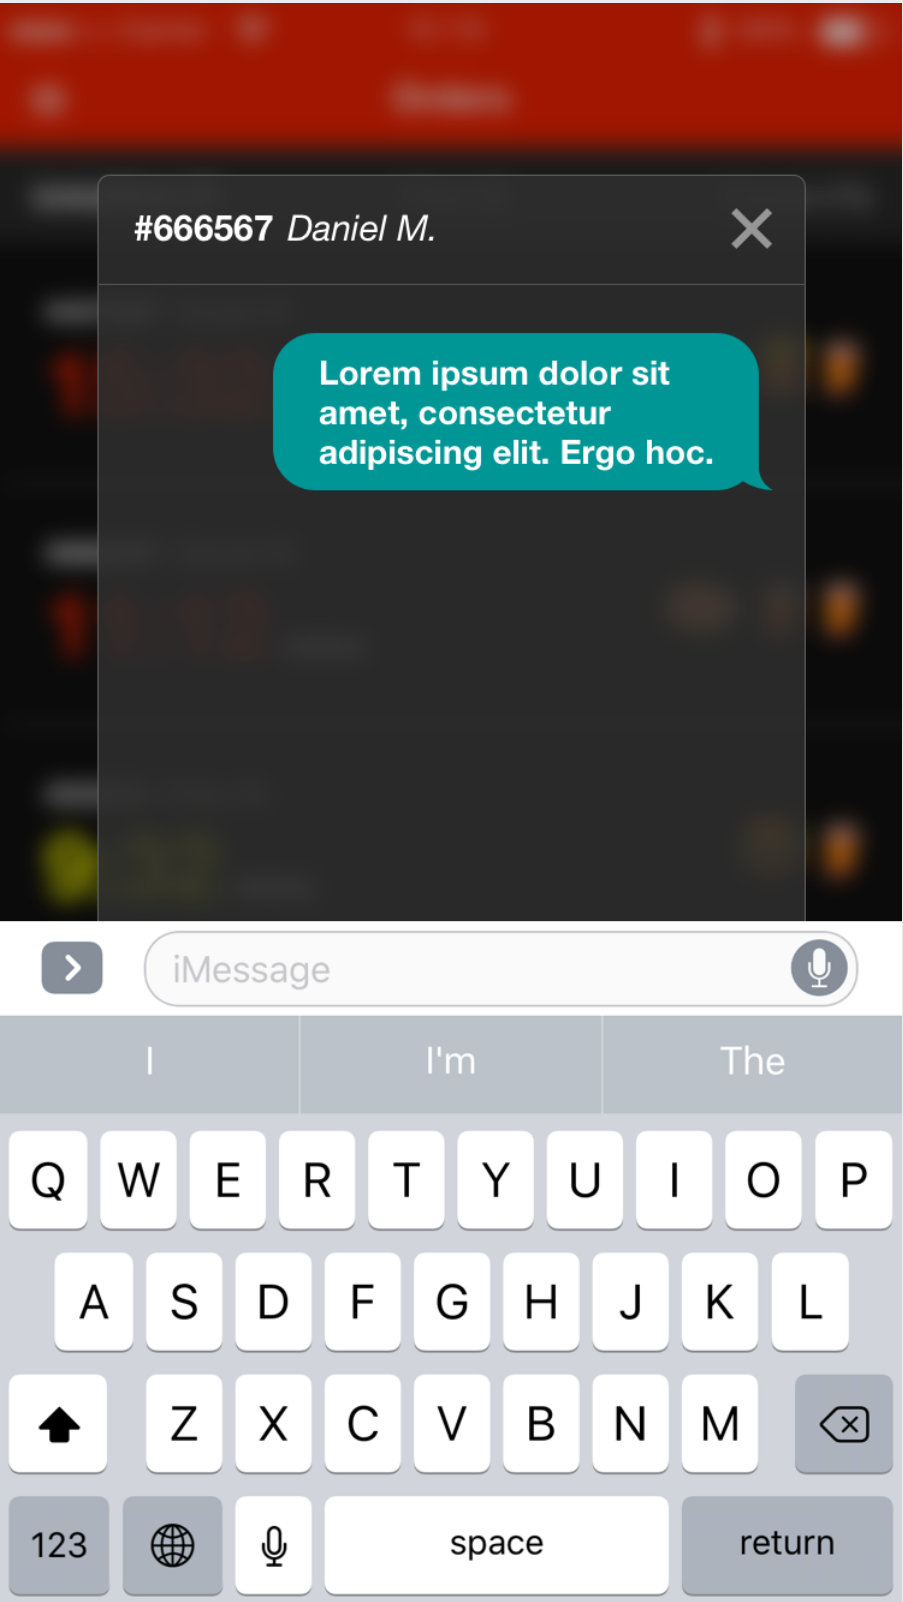

After typing on "Leave Message" button, a group of pre-set messages would show up for people doing quick inputs, they can also do customized messages if need.

The sent messages would appear right under the order detials.

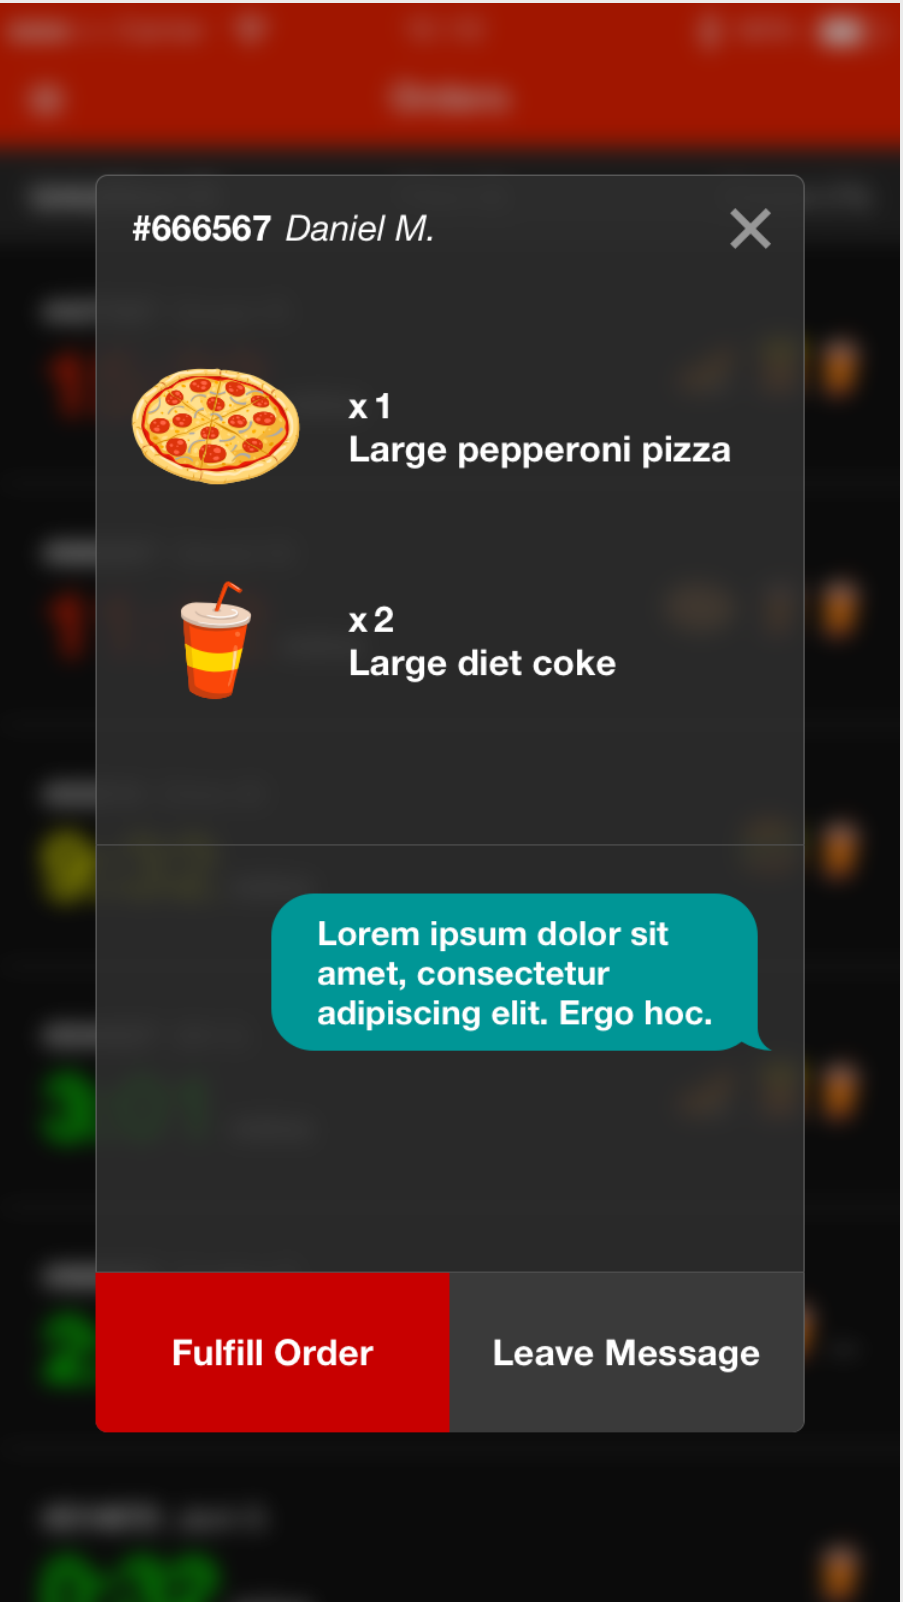

## Pre-set Messages

## Customized Message

## Message Sent

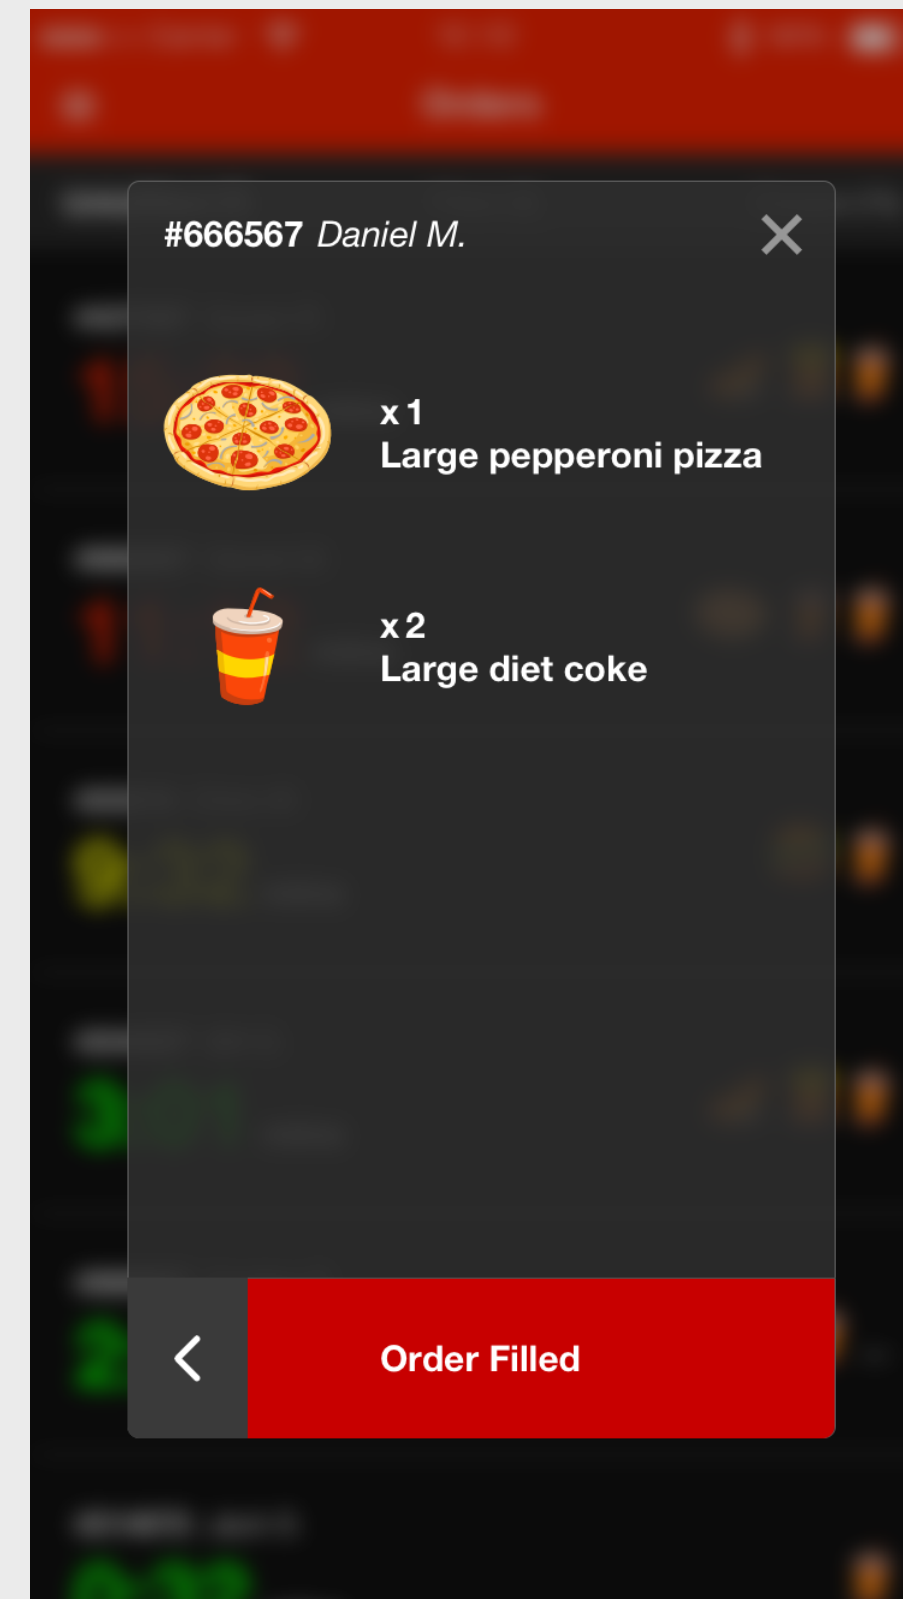

# Workflow

After typing on "Fulfill Order" button, it's the order preparing time for runner, they can only see the order details on the screen, but no messages.

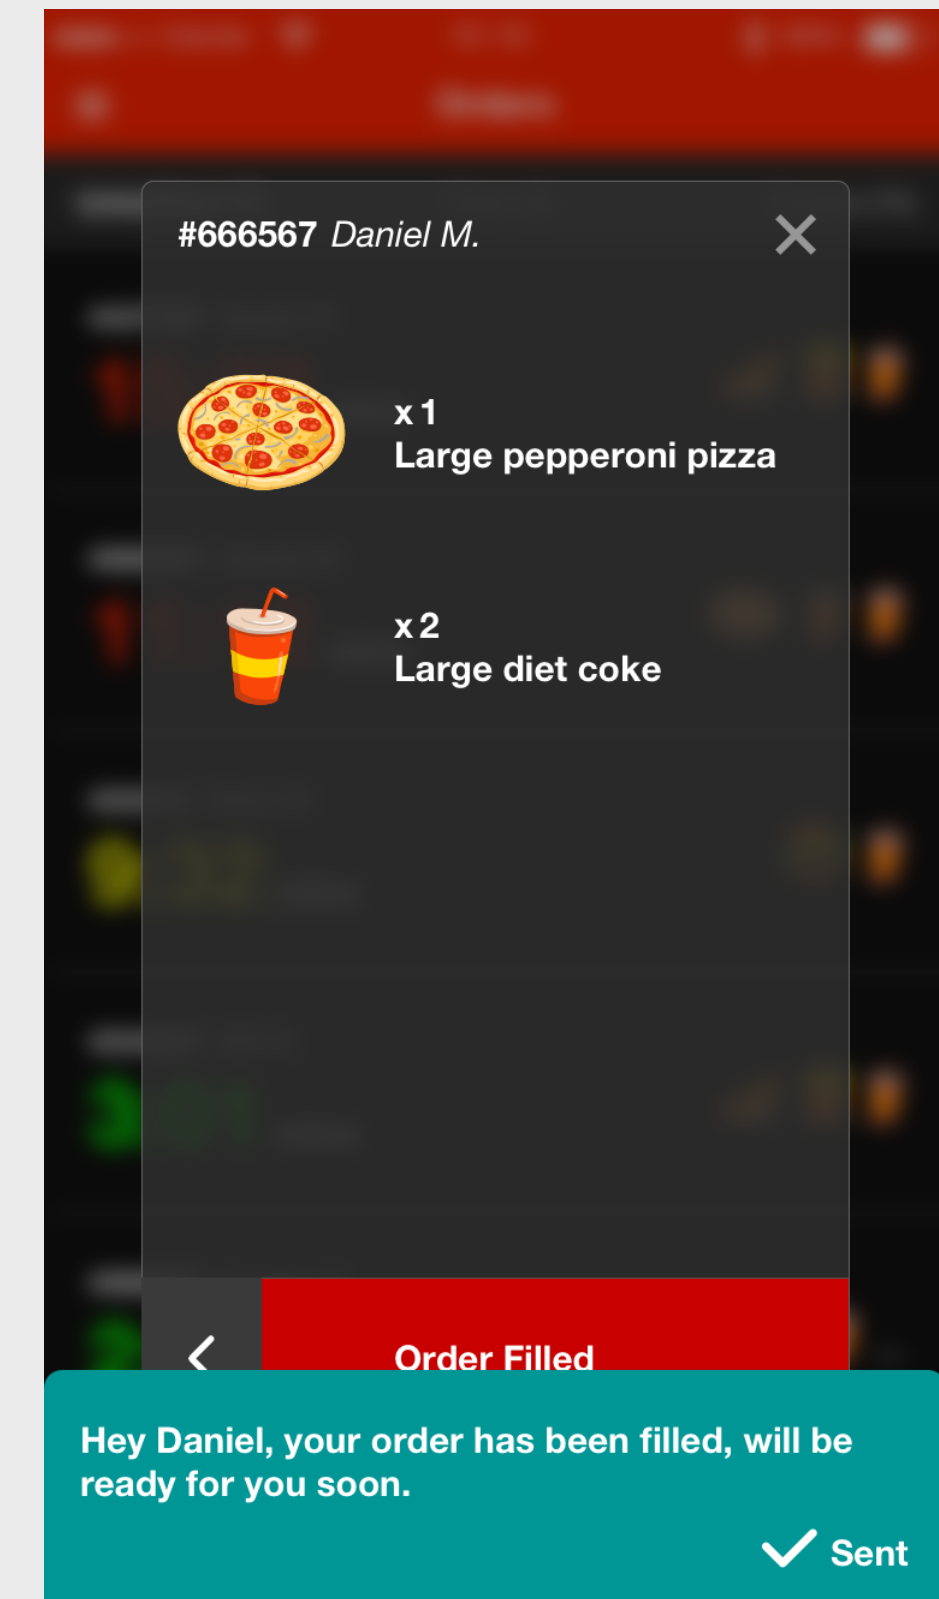

There is "Order Fulfilled" button on the bottom for confirmation and a "Back" button on the left for going to the previous page.

Once tap on "Order Fulfilled", a message would be automatically sent to customer. then switch to "Filled" page.

## Order Filled

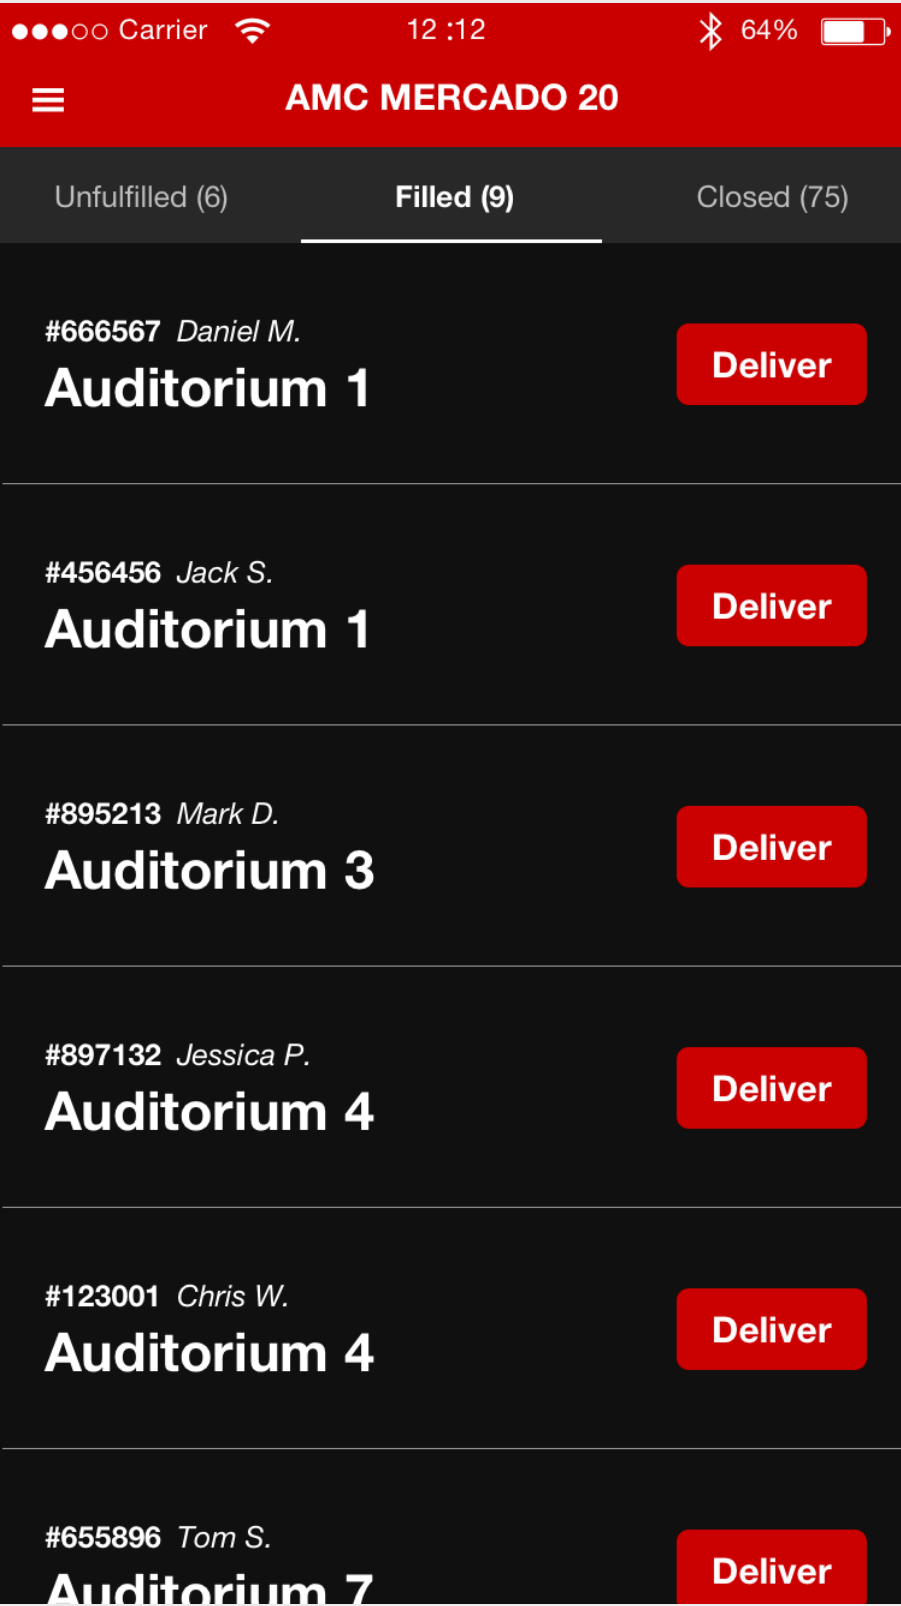

## Message Sent

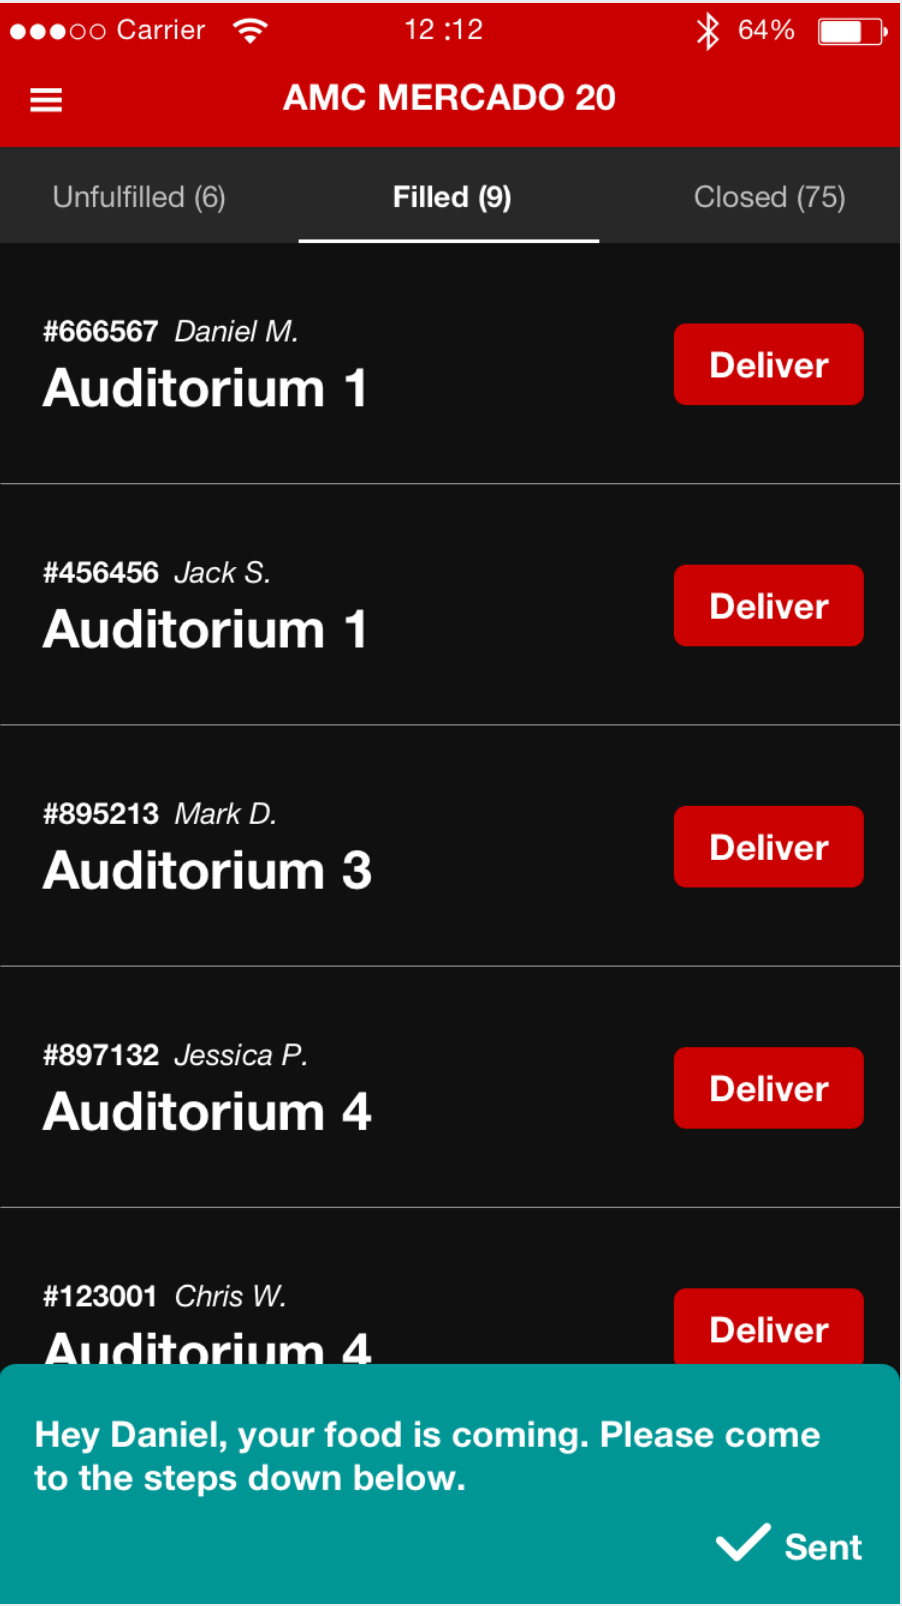

# Workflow

## Filled Ordes

## Deliver with Message

In "Filled" page, all the fulfilled order are sorted by locations (auditoriums).

Once tap on "Deliver" button, a message would be automatically sent to customer.

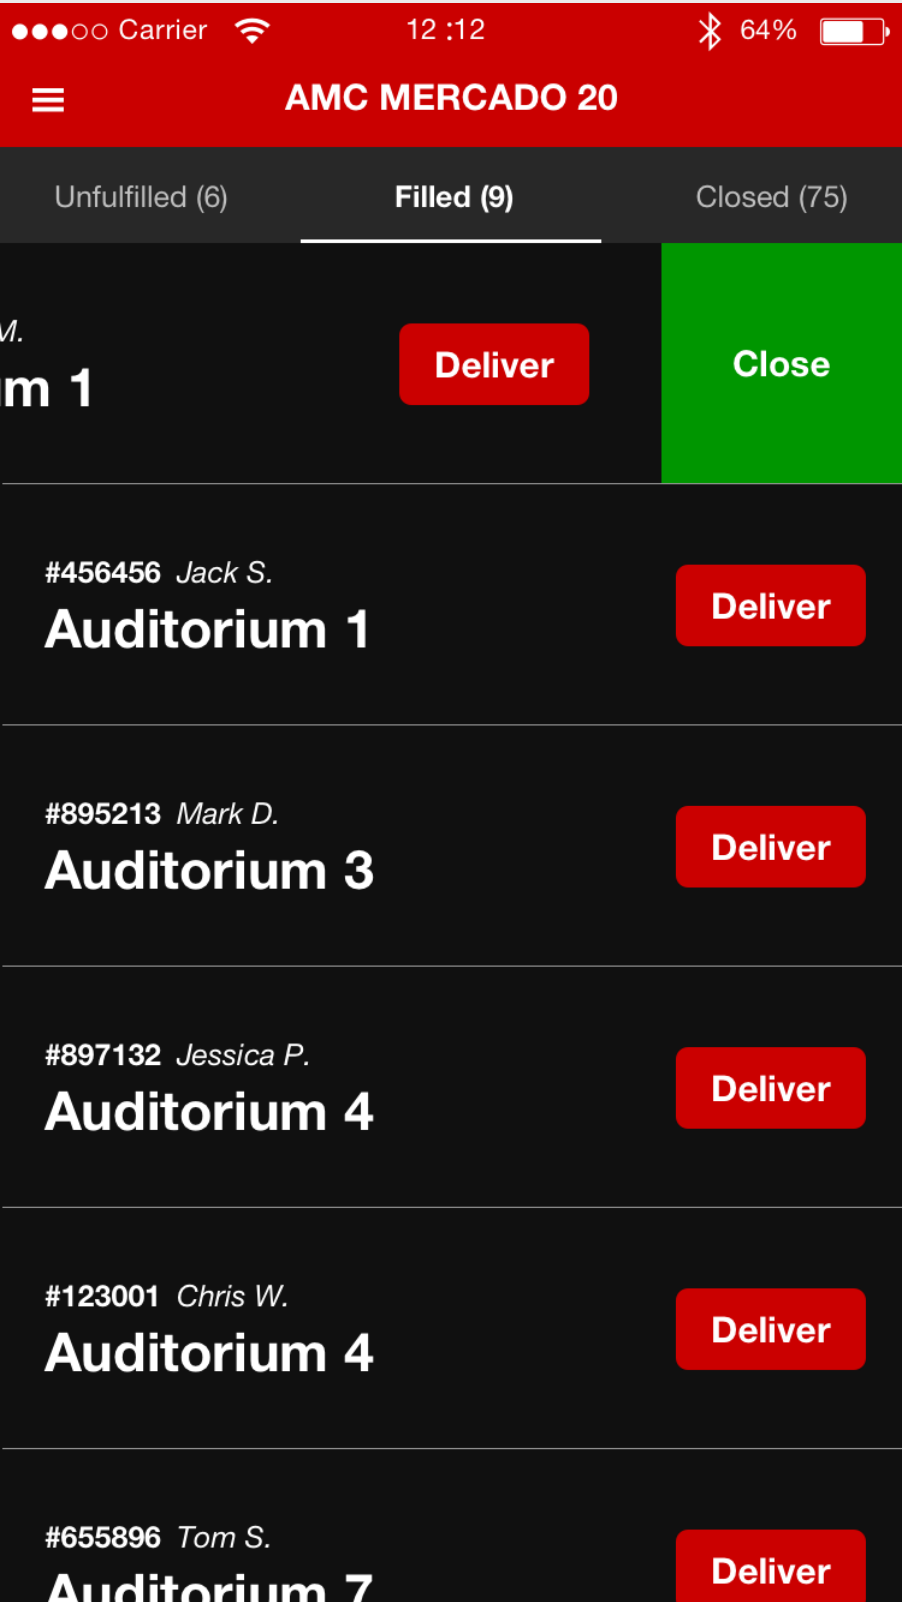

# Workflow

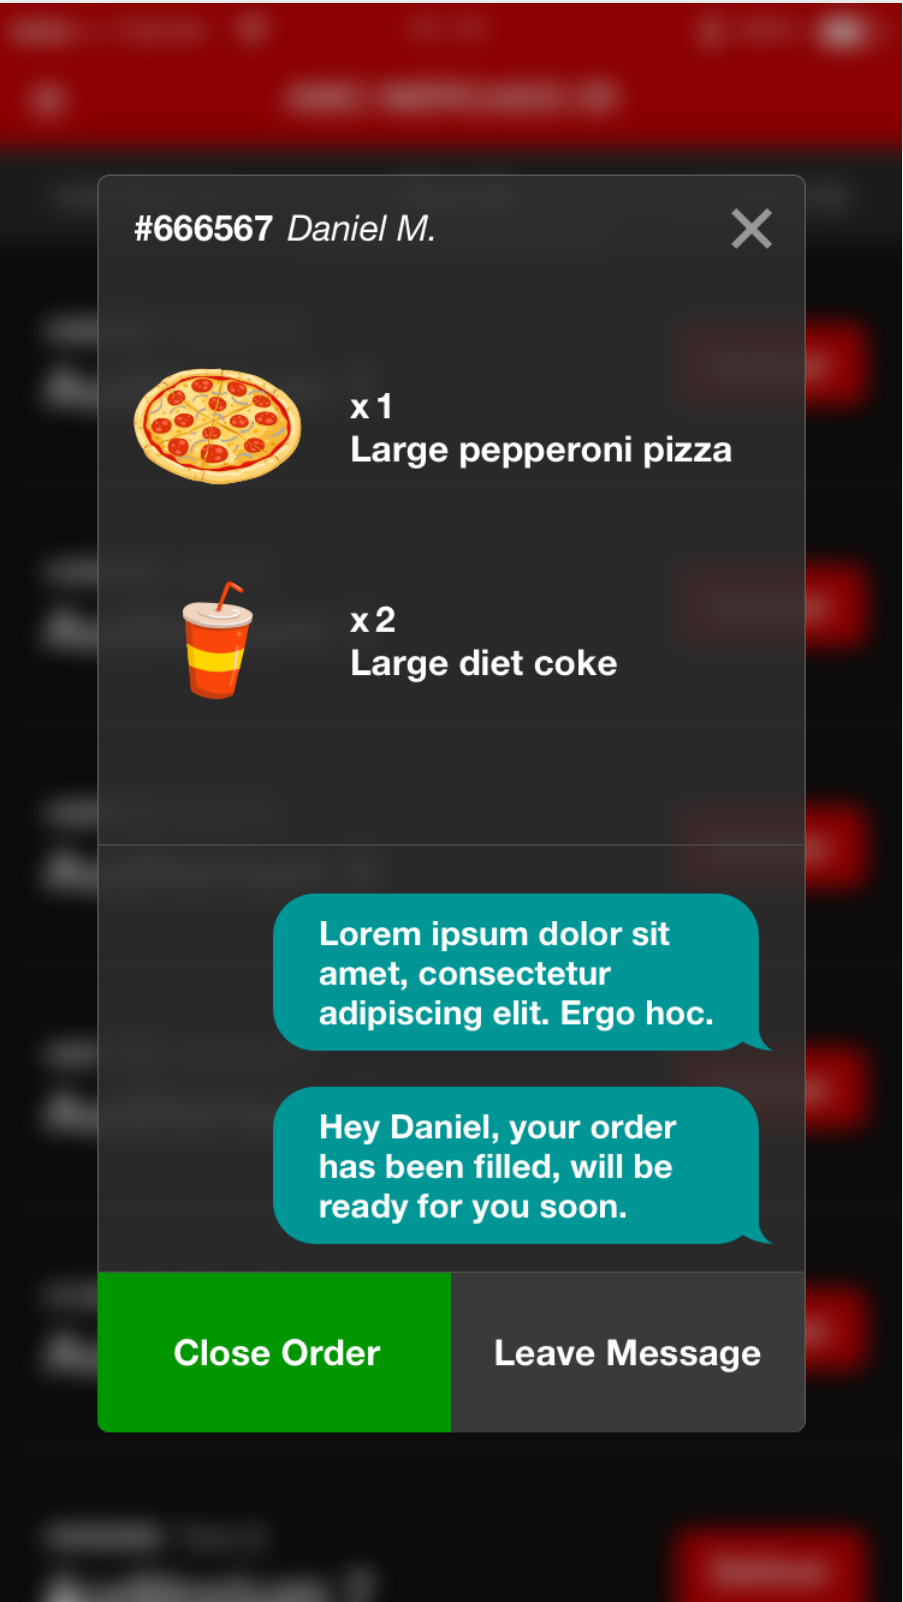

For closing a specific fulfilled order, either swipe it to left (in the list view), or tap into the order details.

Runner can always send messages to customer at anytime.

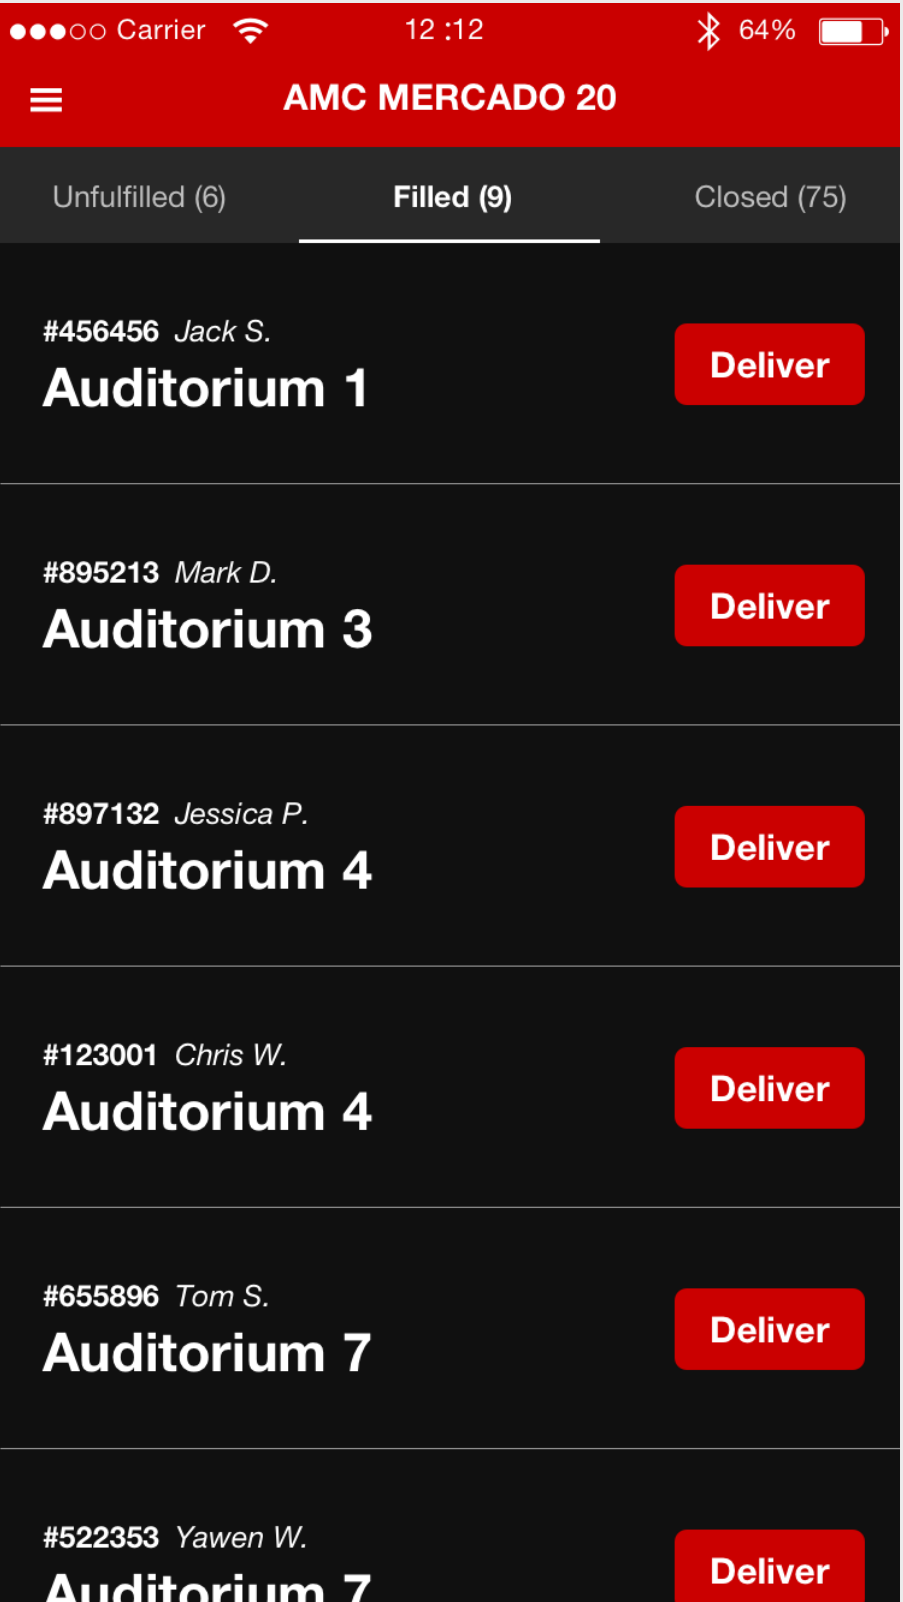

Swipe to Close Order

Click into Order Detials

Order has been Closed

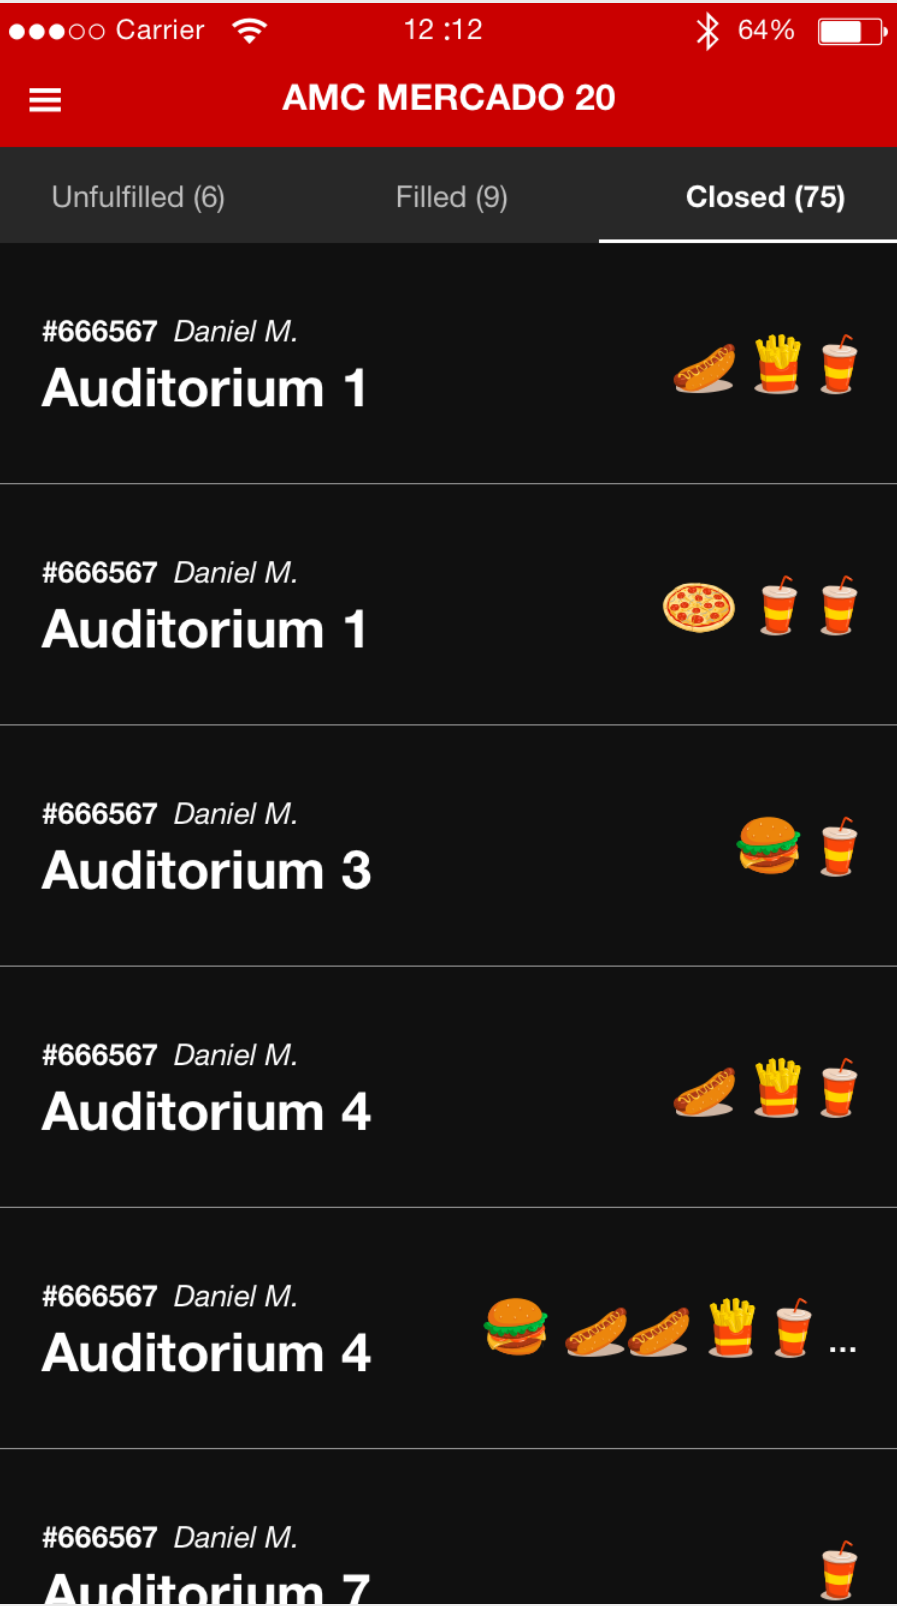

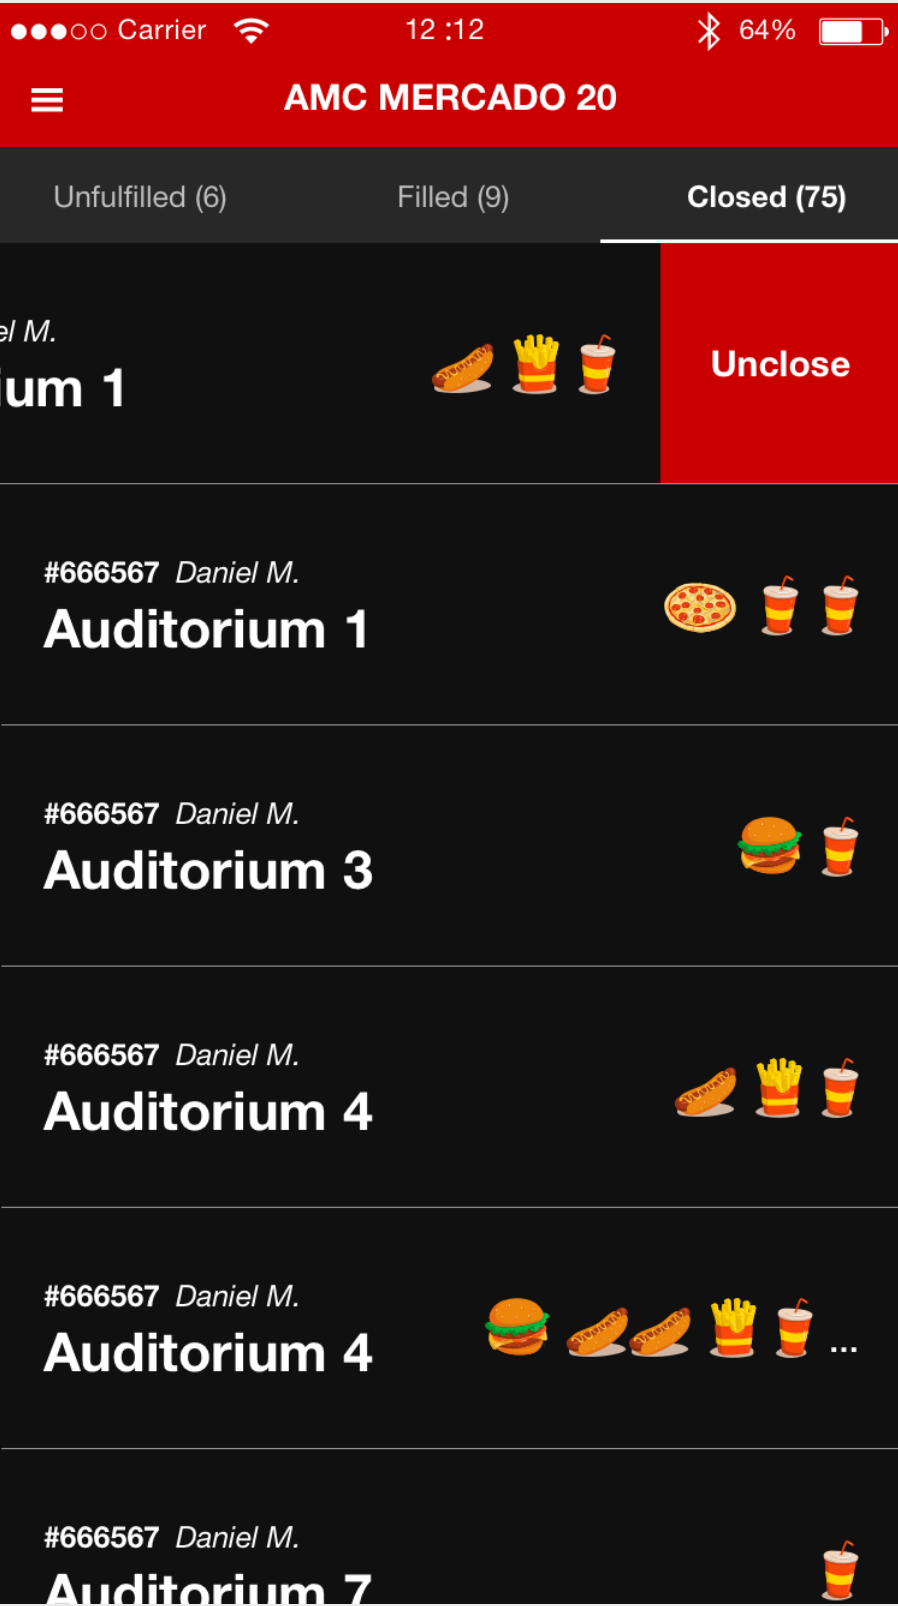

# Workflow

Based on the same usability, in "Closed" page, runner can also swipe to left or tap-in to unclose a specific order, and leave messages as well.

## Closed Orders

## Swipe to Unclose Order

## Click into Order Detials
